

Important Information About Your Drinking Water

Public water systems must routinely monitor for drinking water contaminants. PICOSA WSC, TX2470026 failed to monitor for or meet drinking water standards. The table below lists each violation, the time period(s), potential health effects, and associated analytical results (if applicable).

| Violation | Violation Number | Time Period(s) of Violation(s) | Potential Health Effects | Analytical Results |
|--|------------------|--------------------------------|--|------------------------------------|
| A Lead and Copper (LCR) Routine Monitoring/Reporting (M/R) violation | 2016 9 | 01/01/2015 12/31/2015 | Required samples for contaminant or contaminant group were not collected, or samples were not reported to TCEQ, for the specified monitoring period. | No Analytical Result(s) Associated |

You do not need to boil your water or obtain alternative water supply (e.g. bottle water) at this time. However, if you have specific health concerns, consult your doctor

If you have a severely compromised immune system, have an infant, are pregnant, or are elderly, you may be at increased risk and should seek advice from your health care providers about drinking this water. General guidelines on ways to lessen the risk of drinking water contaminants are available from EPA's Safe Drinking Water Hotline at 1-800-426-4791.

Corrective Action:

PICOSA WSC has taken the following action(s) to return the system to compliance:

System will collect lead + copper samples prior to due date.

For more information, or to learn more about protecting your drinking water, please contact PICOSA WSC TX2470026 representative *Joshua Peoples* at *30-393-4424*

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.
